Your Hackathon's Web Database

Use Kintone to
store incoming data or
manage outgoing data! 🚀

Kintone allows you to
build **Web Databases**
quickly & easily! 🔎

Query 1 actor database1 - Schema employee table - Table employee table employee table

 Table Name: employee table
Charset/Collation: utf8mb4 utf8mb4_0900_ai_ci

Comments:

Column Name	Datatype	PK	NN	UQ	B	UN	ZF	AI	G	Default/Expression
employee id	INT(11)	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	NULL					
first name	VARCHAR(45)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>						
last name	VARCHAR(45)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>						
Age	INT(11)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>						
Department name	VARCHAR(45)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Column Name: Department name
Charset/Collation: Default Charset
Comments:

Traditional Databases 😞

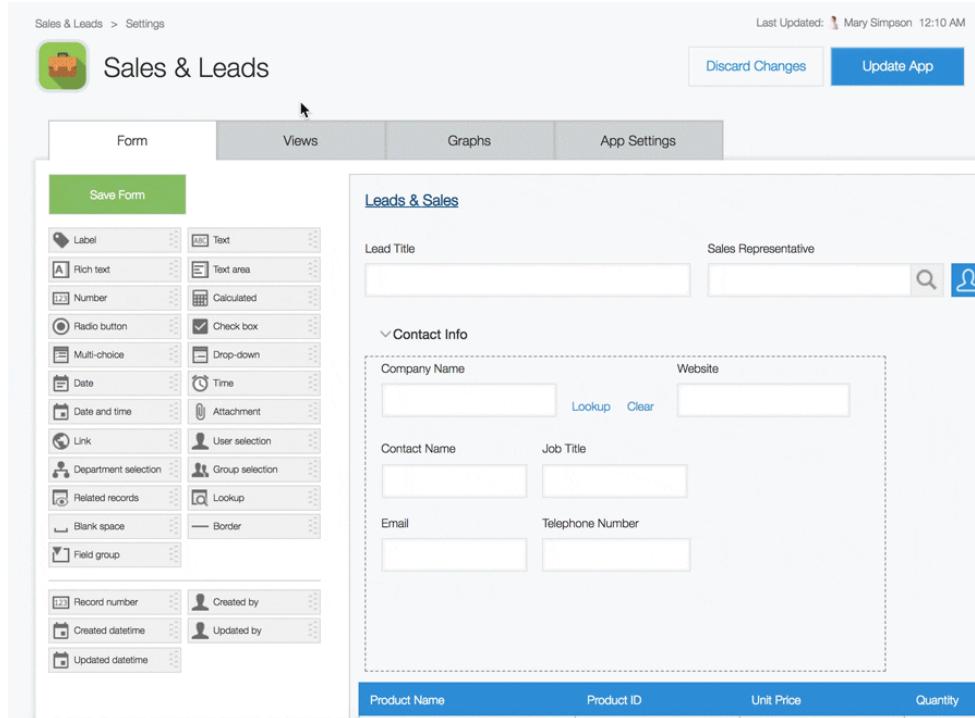

Needs high-level understanding of databases

Servers need to be constantly running & maintained to be accessed

Kintone Databases 😊

Databases are created with intuitive
drag-&-drop GUI

No servers need to be set up by the
user

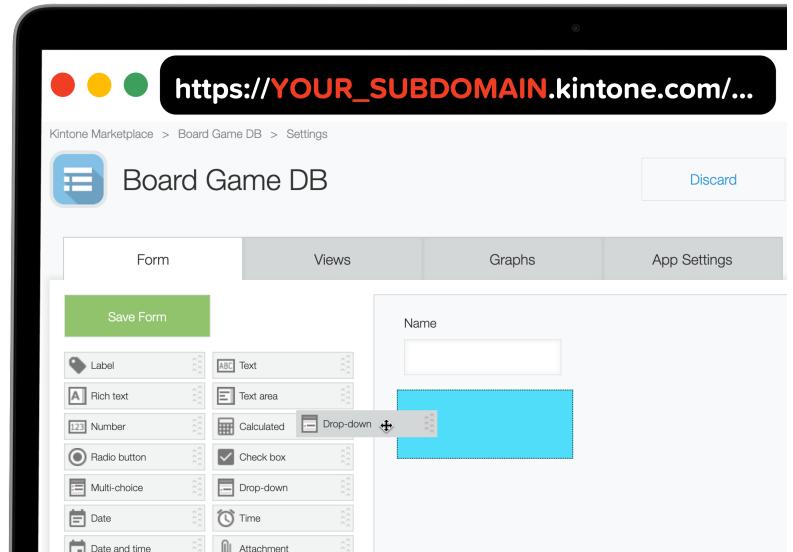

The screenshot shows the Kintone app builder interface. At the top, there's a navigation bar with 'Sales & Leads > Settings' on the left and 'Last Updated: 1 Mary Simpson 12:10 AM' on the right, along with 'Discard Changes' and 'Update App' buttons. Below the navigation is a header with tabs: 'Form' (selected), 'Views', 'Graphs', and 'App Settings'. The main area is divided into two sections. On the left, a 'Save Form' panel lists various field types with icons: Label, Rich text, Number, Radio button, Multi-choice, Date, Date and time, Link, Department selection, Related records, Blank space, Field group, Record number, Created datetime, and Updated datetime. To the right of this is a 'Leads & Sales' form view. It includes fields for 'Lead Title' and 'Sales Representative' with search icons. A section titled 'Contact Info' contains fields for 'Company Name', 'Website', 'Contact Name', 'Job Title', 'Email', and 'Telephone Number'. At the bottom, there's a table with columns: 'Product Name', 'Product ID', 'Unit Price', and 'Quantity'.

Access Kintone DBs via the Browser

Use the GUI to:

- Create Databases 
- View / Add / Edit Records 
- Update Database schema 
- Upload JS Customizations 

Access Kintone DBs via REST API
